

COUNTY OF IMPERIAL
REQUEST FOR PROPOSAL 1003-23
INMATE MEDICAL SERVICES

October 20, 2022
Addendum #2
(3 items)

Item 1. Please see additional information from the question & answer addendum:

7. ...provide the annual dollar amounts spent on total pharmaceuticals...

7A. Current contractor states the requested information is proprietary, and we would not be able to release. Invoicing is based on a flat fee.

Item 2. Clarification for SELECTION CRITERIA, PRICE, page 19:

a. Price based on an inmate population of four hundred eight-five (485) average daily population, and a price for an inmate population of **eight hundred sixty-three (863)** and up to sixteen (16) youth in juvenile hall.

Item 3. The State of California is about to implement a new program called California Advancing and Innovating Medi-Cal known as CalAIM. CalAIM is a multiyear plan to transform California's Medi-Cal program and to make it integrate more seamlessly with other social services.

While CalAIM's broad reach is intended to help all Medi-Cal enrollees, many of the reforms focus on improving care for people with the most complex needs. This group includes people transitioning from jail or prison back to the community who also have complex physical or behavioral health needs.

Please tell us what you know about the program and how CalAIM will be reflected in your proposal.
